

Example ODK schema: device location

This example schema for an Open Data Kit (ODK) form is part of a set of resources hosted on GCP's Forest COMPASS website. For a full tutorial on using ODK for community based forest monitoring, please visit the website at www.forestcompass.org.

Before creating an ODK form, it is best to plan the survey and questions in the form of a schema.

Dropdown list options

A

Arun
Carolina
